

Supporting children through the loss of a loved one

We are a local charity, covering Surrey and the West Sussex area, that supports bereaved children, young people and their families and those who have a family member with a life-limiting condition.

We can provide

- ✱ 1:1 support to children and young people facing the loss of a family member
- ✱ Six-week family grief support groups
- ✱ Telephone advice and support to families
- ✱ A meeting in the family home or at school
- ✱ Support and resources for schools and professionals
- ✱ Training courses on child bereavement

Supporting us

Jigsaw (South East) relies on grants, fundraising and donations to fund its service. We welcome support from across the community, through:

- ✱ Volunteering – at our grief support groups, in the office or as a fundraiser
- ✱ Fundraising – we welcome any support from businesses, community groups, schools and individuals to help raise funds
- ✱ Donating – one off or regular

“Jigsaw was a life-saver for us – it equipped us with the tools we needed to cope with our grief and taught us how to communicate again.”
